

In tune with your needs

Focused on South Africa

How can we help you?

We provide personalised services in the ever-growing South African, African and international markets.

With extensive experience in dealing with multinational corporations, our team likes to get to know the businesses which we advise. Not only does this assist us in providing a better service, it also lets you know that we are interested in you, beyond the four walls of our offices.

With over 40 lawyers spread across three offices in Johannesburg and Durban, Eversheds Sutherland South Africa is a full-service, multi-disciplinary law practice. Our experience covers banking and finance, financial services, insolvency, commercial, corporate, competition, Black Economic Empowerment (BEE), energy and environmental, mining and infrastructure, intellectual property, insurance, IT and privacy, labor, litigation, mediation and arbitration, pensions, property and real estate, tax, company secretarial, trusts and estate planning, administration of deceased estates and criminal law.

We can also connect you globally via our network of worldwide offices and across the continent through the Eversheds Sutherland Africa Alliance (ESAA) (formerly known as the Eversheds Africa Law Institute (EALI)). This unique entity gives you access to leading-edge support across the region.

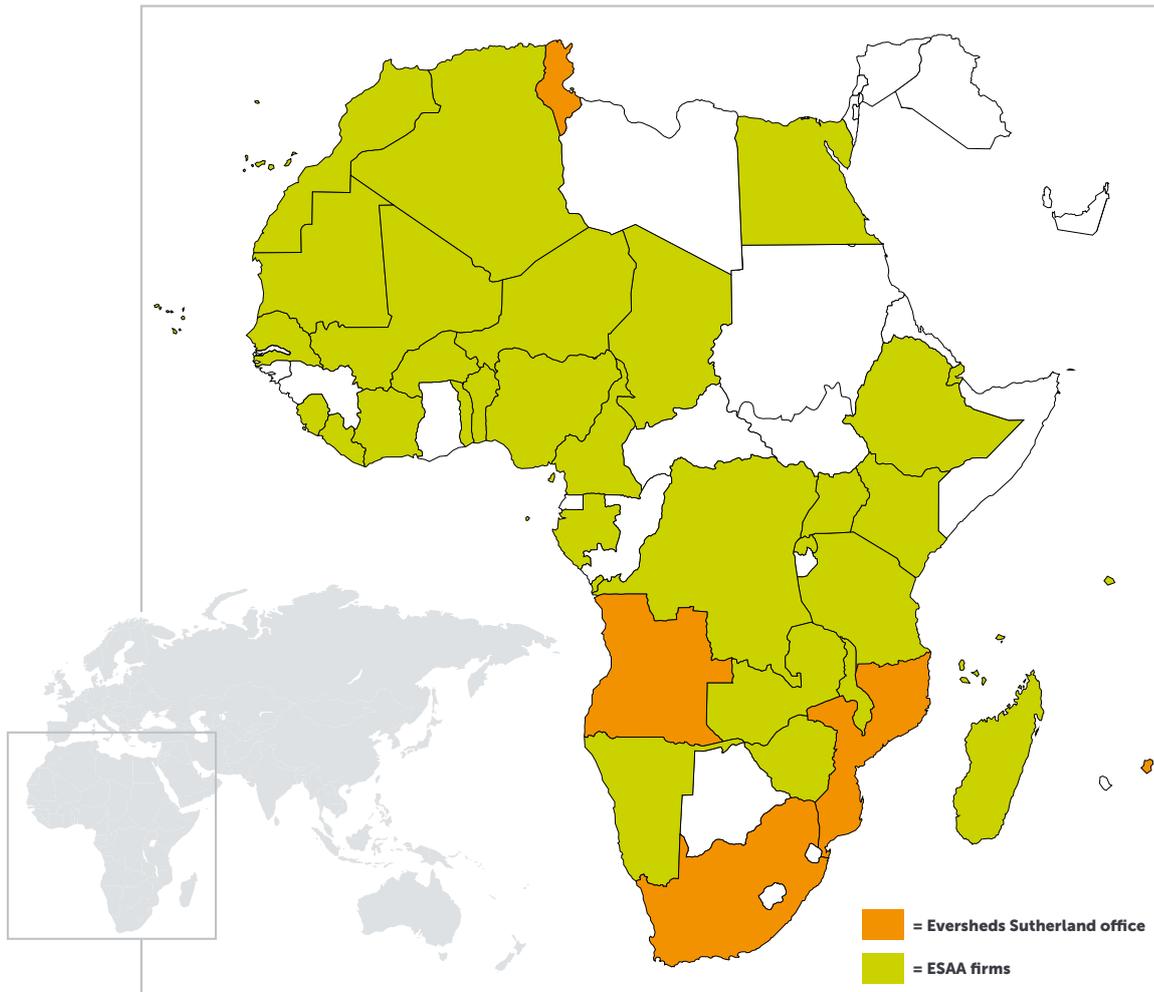

Why work with us?

1. **Dependable advice** – our team delivers strategic thinking when you need it the most.
2. **Global reach** – we offer the best of both worlds in terms of lawyers who are committed locally but connected globally. As part of Eversheds Sutherland International, we can provide access to a global network of lawyers who are commercially astute and technically excellent in their sector.
3. **Eversheds Sutherland Africa Alliance** – ESAA is the largest network in Africa with over 30 firms and enables our clients and contacts to keep abreast of legal developments. We also provide unique access to new thinking and training on the African legal and business landscape.

ESAA's strong commercial focus enables us to meet the growing demands of doing business in Africa and serves to bring the skills and drive of African firms to a wider international market.
4. **Setting standards** – our global operations have been grown carefully so that we can offer you consistent quality wherever you are. We are measurable in the work we do, predictable in the costs we provide, and efficient in the way we deliver results.
5. **Client-centered** – we look after your interests as if they were our own. We are relationship lawyers and trusted advisors who take a forward thinking approach to service delivery.
6. **Transparency** – we are always open with you about your costs and strive to provide cost certainty.
7. **Bespoke solutions** – all our work is focused on the key legal risks you face and tailored to your needs and style.
