

Driving business across the region

Focused on the Nordics and Baltics

Our coverage in the Nordic and Baltic region is unique. With 17 offices working as one team across Finland, Sweden, Estonia, Lithuania, Latvia, Poland, Germany and Russia, plus long-standing relationship firms in Denmark and Norway, we can offer integrated legal advice across all regional borders.

As well as offering the full spectrum of legal services, we can provide integrated business-related support via our Nordic Baltic Core Partners Group. This group offers tailored training that takes into account regional differences and can help you liaise with relevant local and international business organizations, cooperate on business events or support with the meetings you may want to arrange at our conferencing facilities across our regional offices.

Whilst our Nordics and Baltics team has an in-depth understanding of the region, it is also connected globally to the wider Eversheds Sutherland network. With 66 offices across 32 countries worldwide, we can provide access to a diverse range of sector and regional knowledge, delivering our services across borders and jurisdictions through a single point of contact.

Our ambition is to drive next generation client experience through a commitment to quality and innovation. Named as a Top Ten Game-Changer of the past ten years by the FT Innovative Lawyers Report, we're also ranked 8th in the FT50 list of the most innovative law firms in Europe. ES/ Disrupt, our legal service for start-ups, won the innovation award at the British Legal Awards 2017 organized by Legal Week and we are currently developing ESME, an AI solution for routine legal tasks, in conjunction with our clients.
