

Legislation monitoring

Labour and commercial law

Changes in the law may materially affect your business activities. At the same time, no such changes are approved overnight, and a business has sufficient time to adapt to them if informed in time.

Eversheds Sutherland, advokátní kancelář, s.r.o. offers a service to monitor legislative changes in the areas of employment and commercial law.

How the cooperation works

- If you are interested, we will arrange a face-to-face or online meeting to confirm that the legal areas under review are relevant to your business activities
- If the standard scope of the monitored legislation does not correspond to your company's business activities, we can agree on an individual solution
- After the month in which the cooperation agreement is concluded, we will send you a regular overview of the changes in legislation for the previous month by the 15th day of the following month

The fee for the legislation monitoring service in both areas is CZK 1,000 per month (plus VAT). If you are interested in other legal areas, we can agree on an individual solution. Any initial meeting is free of charge.

Want to see what the February issue looks like? Download it [here](#).

If you are interested in receiving our legislation monitoring service, you can contact us any time.
