Eversheds Sutherland invites you to a seminar designed for organisations who regularly tender for public and utility contracts in Northern Ireland and beyond. The aim is to provide insightful legal perspectives on the tendering process with a view to helping bidders to engage in smarter and more effective tendering. Peter Curran and Aine Smith of Eversheds Sutherland will provide valuable information and tips on how to maximise the chances of tender success and what is achievable if things do not go according to plan.

This seminar offers a great opportunity to learn more about the public tendering process and help organisations bidding for public contracts gain a competitive advantage.
