

## Drivers and trends – corporate reorganizations

Breakfast event in Geneva

**Tuesday 29th January 2019, 7:45 am to 10:00 am**

**Starling Geneva Hotel & Conference Center, 1218 Grand-Saconnex**

Change is the new norm and each month companies are contemplating how to transform their current business set-ups to create efficiencies, maximize use of invested capital, simplify corporate structures, or improve fiscal and regulatory compliance.

This breakfast event is aimed at in-house lawyers, tax, financial and treasury professionals with responsibility for delivering strategic, cross-border and multi-disciplinary corporate reorganizations such as: carve-outs, legal entity rationalizations, cash utilizations, supply chain structures, post-acquisition integrations, to name a few. This event will explore some of the practical issues around intra-group corporate reorganizations, being typically complex, multi-jurisdictional and cross-functional projects. It will further highlight recent tax developments.

### Topics

- **Recent European group reorganizations trends**  
Robin Johnson, Partner, Eversheds Sutherland UK
