

The countdown begins

Is your business ready for Brexit?

.....

Are you struggling to understand how Brexit may impact the chemical compliance aspects of your business and next steps to consider?

Have you thought about your options for any REACH registrations required to meet the May 2018 deadline?

Are you wondering about your data access agreements for REACH and Biocidal Products Regulation (BPR) purposes?

Do you know what discussion points to take up with your supply chain, where you have customers or suppliers in the UK, to minimise any risk of market disruption when the UK leaves the EU in March 2019?

Is the Article 95 BPR list for biocidal products at the back of your mind as needing consideration?

If so, we can help. Our Chemicals team offers a two-hour Brexit surgery with an experienced lawyer, giving you the opportunity to identify the potential impact of the above on your business for a fixed price of £550/€650 (excluding VAT if applicable).
