

Service Excellence

Legal Project Management

- > It's our commitment to drive service excellence through well designed, tech-enabled legal service delivery. Legal Project Management (LPM) gives our clients greater control, enhanced visibility and consistently delivered results.

Our commitment

We deliver projects on time and within budget, ensuring the project requirements are met. We achieve this through clear management of scope, resources, responsibilities, fees and timescales, and by integrating appropriate legal technologies as a matter of best practice. Our lawyers are trained to deliver this service for all matters, and for the most complex or strategic projects we draw on the expertise of our Legal Project Managers. Each member of our LPM team has practice-specific and industry expertise to provide our clients with a tailored service to meet their specific requirements.

Technology solutions

Our LPM team utilise a variety of project management technology, selecting the right solutions to achieve the best results and drive service excellence across the firm. We combine bespoke solutions with industry leading technology to deliver global projects. Technology helps us to automate workflow of key processes, build out and track budgets and project plans, and visualise project data in real time. Our dedicated technologists work with our Legal Project Managers to provide a bespoke set of tech tools for your matter.

PLAN

We start projects with an initial discussion with our clients to cover engagement, scope of work, pricing and delivery model. Our LPM team facilitates this exercise, using a range of solutions to expedite the process.

DELIVER

We proactively manage all aspects of delivery, providing regular, clear updates on progress, fees, risks and timeframes. Our LPM team onboard our technology, knowledge, design and change management specialists onto projects to deliver the best value and experience to our clients.

LEARN

As a trusted advisor we continuously review and improve our offering. We evaluate the use of people, processes and technology employed on each project, and have honest conversations with our clients to understand how we can enhance service delivery in the future.

Legal Project Management case studies:

Major residential development

Our LPM team supported a client to efficiently manage the legal workstreams of a 15-acre London site being redeveloped into a vibrant community hub, including planning, real estate and construction advice.

Global reorganisation

A team of dedicated Legal Project Managers was deployed to assist with an urgent and time critical pre-sale global reorganisation across 25 jurisdictions for healthcare company. This was delivered within the tight deadline.

Complex corporate restructure

Our LPM team was engaged by a global oil and gas company to project manage their pre-spin restructuring which involved over 20 countries across Europe, US Middle East and Asia keeping the project on track and on budget.

Data Breach investigation

The LPM team supported our client who was under regulatory investigation for a significant data breach, ensuring the smooth running of the investigation.

Legal consenting programmes

Our LPM team has supported the legal consenting process for multiple Nationally Significant Infrastructure Projects (NSIPs) across the UK, including wind farms, rail freight interchanges and a sewage works.

Litigation risk review

LPM was deployed to support a litigation risk review of the closure of a Major UK City department store. This project had tight timings and costs which required enhanced weekly reporting. The team utilised our project management tool to keep everyone on plan, within budget and facilitate/streamline the client reports on costs and insurance of bills.

What our clients say:

The turnaround times are excellent. The level of detail is exactly as we require, neither too much nor too little. Our requests are fully met and the response is well structured. They provide full project management around the projects to give us the confidence that everything is on track and deadlines are met."
